PROFESSIONAL SUMMARY

Frontend Developer focused on building interactive, high-performance user interfaces with **React.js**. Combines deep technical proficiency in modern JavaScript with responsive design frameworks to deliver seamless web experiences. Adept at managing state hooks, component architecture, and front-end optimization to build robust Single Page Applications (SPA).

TECHNICAL SKILLS

- **Core Development:** React.js, JavaScript (ES6+), HTML5, CSS3, Single Page Applications (SPA)
- **UI & Design Frameworks:** Responsive Web Design, Tailwind CSS, Bootstrap, CSS Modules, Flexbox
- **Tools & Build Ecosystem:** Git, GitHub, Vite, Vercel Build Tools, npm (Package Managers)
- **Methodologies:** Front-End Optimization, JSON Integration, Component Architecture, Problem Solving

PROFESSIONAL EXPERIENCE

Frontend Developer Intern | March 2026 – August 2026

Max Stack Labs Technologies Pvt. Ltd.

- Built and optimized responsive user interfaces using modern web technologies to elevate the digital user experience.
- Collaborated closely with development teams to refine cross-browser web workflows and enforce clean coding standards.
- Elevated frontend performance metrics by debugging UI scripts and reducing layout shifts across production environments.

PROJECTS

Personal Portfolio Website | *React.js, Tailwind CSS, Vite*

- Engineered a fully responsive developer portfolio using React functional components and the Vite build tool to ensure rapid load times.
- Programmed interactive UI elements and cross-browser visual enhancements utilizing native JavaScript triggers and smooth-scroll capabilities.
- Formulated clean, modular UI components optimized for seamless presentation on both mobile and desktop viewports.

Movie Application | *React.js, JavaScript, CSS*

- Developed a dynamic media application featuring an intuitive search and browse interface for discovering film content.
- Programmed a favorites management feature using persistent state logic to allow users to save and curate custom watchlists.
- Connected application layouts with dynamic frontend data states to handle live filtering and fluid layout adjustments.

Todo App | *React.js, CSS Modules, Vite*

- Authored a minimalist, state-driven task management application applying React state management paradigms for instantaneous UI rendering.
- Leveraged custom CSS Modules to enforce component style scoping, neutralizing global style bleeding and establishing responsive empty-state layouts.

EDUCATION

Diploma in Electronics Engineering (First Class) | August 2018 – May 2022

Govt Polytechnic College Kannur, Kerala

Higher Secondary Education (12th) | Completed 2018

MHSS Mambaram, Kerala (Score: 80%)

LANGUAGES

- **Malayalam:** Native
- **English:** Intermediate
